FALL 1932      -      SPRING 1933

TERMS OF SALE

Prices herein listed cancel all previous quantity prices and are subject to change without notice. All offers are made subject to supply.

Orders from this price list will be shipped direct to the customer C.O.D. unless agent has delivery at that point.

We will furnish for replacement, without charge, any nursery stock sold from this list with the exception of items marked "not guaranteed", that should fail to start growth the first season from any fault of condition upon receipt, if we are notified before October first, following delivery.

We unqualifiedly guarantee all stock to be true to name.

If thru error any should prove untrue, we will replace without charge.

IMPORTANT

We make no charge for packing. We pay all Freight charges excepting on replacement stock.

We solicit your orders on our record of Eighty-two years of fair dealing and the assurance of the treatment that we would expect were our positions reversed.

THE NEW HALEHAVEN PEACH

Produced thru the efforts of the Michigan State Experiment Station, South Haven, Michigan, (Mr. Stanley Johnson, Supt.). The Halehaven, a cross between the famous varieties, J.H.Hale and South Haven, is a large, beautifully colored, yellow fleshed peach, ripening approximately two weeks before Elberta. A perfect freestone, strong thrifty grower, splendid shipper and an extremely hardy heavy bearer of exceptionally fine flavor.

The Halehaven is a big money-maker and should be included in every planting.
